Follow the warnings and notes below and ensure that those who may be involved also comply with them.

Technical information

-  **NOTE:** Locker-type cabinets have been subjected to a pre-market risk analysis. The product complies with safety requirements in accordance with applicable standards and regulations.
-  **NOTE:** The product bears a series number and an identification mark allowing verification of its origin and compliance with technical standards. This information can be found on the packaging or in the accompanying documentation provided with the product.

-  **WARNING:** The product is not intended for sitting, climbing or standing on. This may lead to structural damage and risk injury.
-  **WARNING:** The product is not intended for use by children under 12 years of age without adult supervision.
-  **WARNING:** Do not use non-original locks or locking mechanisms. Modifications may compromise the functionality and safety of the product.

Transport and storage safety

-  **WARNING:** The product must be transported and stored in an upright position. Incorrect positioning may lead to damage to the edges or structure.
-  **WARNING:** The packaging may contain small parts (e.g. screws, locks, keys) that pose a choking hazard to children. Keep out of their reach.

Maintenance, repair and disassembly

-  **NOTE:** Check the condition of the hinges, locks and doors. If play or damage is detected, tighten or replace components.
-  **NOTE:** All repairs should be carried out by authorised persons or an authorised service centre.

Thank you for choosing our product and we wish you a comfortable experience!

Assembly and use

-  **WARNING:** Assembly of the cabinet should be carried out in accordance with the manufacturer's instructions. For tall models, assembly by at least two people is recommended.
-  **WARNING:** The cabinet should be placed on a stable and level surface. It is recommended that the furniture is fixed to the wall or floor to prevent tipping over during use.
-  **WARNING:** Do not overload the lockers – the maximum load for each locker is given in the technical documentation.
